To handle the demands of advanced academic applications, document formats, media, etc., your computer should have at least an Intel i5 processor, 8GB memory and a 260GB Hard Drive. The preconfigured systems available to ESF students through the SU Bookstore meet these specifications. If you already have a computer or purchase one elsewhere, use these specifications to assess your system. If your current system doesn’t meet these approximate minimums, we suggest that you anticipate needing to replace it at some point during your years at ESF.

### MACBOOK PRO 13 WITH RETINA DISPLAY
